摘要

本文通过论述绿色金融的国际实践和最新进展这一内容, 可以清晰直观地了解到, 我国在进入 21 世纪之后, 一直提倡建立友好型社会、资源型社会, 那么此时推出了一种新的环境经济政策——绿色金融, 绿色金融是一个系统性的工程, 其主要是为了保护环境以及节能减排而设立的活动, 而且其中还包含了一系列的规章准则, 为发展绿色金融实施的一系列制度, 包括绿色债券、绿色评级等。基于此, 本文重点从绿色金融的国际实践和最新进展进行分析, 结合国外先进的发展经验, 为我国发展设立模式选择。

关键词: 绿色金融; 国际实践; 进展

ABSTRACT

This article can clearly and intuitively understand the international practice and the latest progress of green finance. After entering the 21st century, China has always advocated the establishment of a friendly society and a resource-based society. Environmental economic policy - green finance, green finance is a systematic project, which is mainly for the purpose of protecting the environment and energy conservation and emission reduction, and it also contains a series of rules and regulations for the development of green finance. A series of systems, including green bonds, green ratings, etc. Based on this, this paper focuses on the international practice and latest development of green finance, combined with advanced foreign development experience, to establish a model choice for China's development.

Keywords: green finance; international practice; progress
